

## Training programs

### **handPoint Retail 5 setup (entry)**

*After this session you will be able to setup a PC and a handheld for a sync of handPoint Retail 5 files between the two. Specifically, you will know how to setup ActiveSync, handPoint Retail 5 Designer and handPoint Retail 5 Desktop Server on a PC computer and how to setup handPoint Retail 5 Client on a handheld device.*

### **handPoint Retail 5 Designer (entry)**

*After this session you will be able to create and edit projects with the most commonly used jobs. Specifically you will learn how to setup your own projects both as new and from templates, the basics of jobs and job comments, the purpose and structure of barcode and product files as well as learning how to use checklists. Finally, you will learn the basics of using scripts in fields.*

### **Remote/Wireless Sync (advanced)**

*After this session you will be able to configure your projects to receive data from and return data to a remote server over a network, this will include knowing how to work with the handPoint SyncServer / SyncClient utilities.*

*You are required to finish the handPoint Retail 5 setup (entry) training before starting this one.*

### **Cold boot resistant setups (advanced)**

*After this session you will be able to make your handheld devices cold boot resistant, such that no data is lost if the battery runs out. Specifically, you will know how to configure a device and the handPoint Retail 5 client.*

*You are required to finish the handPoint Retail 5 setup (entry) training before starting this one.*

### **handPoint Retail Designer (advanced)**

*After this session you will be able to understand and enhance your projects with actions (such as scripting, http, EXE and print actions), you will know how to implement POS jobs and button files, you will understand how to use product comments and how to apply data transformations on your files. Finally, you will have acquired an in-depth understanding of scripts.*

*You are required to finish the handPoint Retail 5 Designer (entry) training before starting this one.*
